Patent Services
2022

Patent Services

- A. Patentability Search
- B. Patent and Utility Model Prosecution
- C. Industrial Design Filing and Prosecution
- D. Assignment of Rights
- E. Drafting of Patent, Utility Model and Industrial Design Applications

Swift responses

We provide quick responses to each and every consultation of our clients with clarity and simplicity.

Regular Status Reports

We operate with a pragmatic approach to simplify our client's efforts. We keep them informed of every stage of the procedures.

Highly specialized professionals

We know the high complexity of our clients' challenges, and we are up for the task with a team of the best technical experts that provide top-notch assistance for each case.

Vanesa Martínez, Head
vanesa.martinez@moellerip.com

Patentability Search

We provide a report on the likelihood of obtaining a Patent, Utility Model, Industrial Model, or Industrial Design.

Whether thematic and/or bibliographic, we consider patenting trends, freedom to operate in the needed country, technology watch, and report on the state of the art.

01. *How it works?*

We receive a detailed description of the object of the search. According to the technical field, we assign an expert engineer to conduct the search that establishes various search strategies to implement on different databases. The engineer evaluates the results of the database searches and prepares a technical report to deliver. The information provided by our clients is entirely confidential. A confidentiality agreement can be signed if needed.

Appointment of expert engineer

Definition and implementation of search strategies

Analysis of the results

Delivery of the technical report

02. *Benefits*

- Have an expert's opinion on the likelihood of obtaining a Patent, Industrial Model, Utility Model and/or Design before filing it to ensure an optimal use of resources.
- Get reliable results from qualified and experienced professionals.

Patent and Utility Model Prosecution

We take care of the filing and prosecution of patent applications and utility model of your inventions.

01. *How it works?*

We make sure that all your information and documentation meets local requirements. An engineer expert in the technological field of the invention reviews the claims to assess whether the invention is patentable. We track and follow up the registration process through our customizable case file management software until granting and keep you duly informed throughout the entire process.

Revision and preparation of documentation

Review by expert engineer

Registration

02. *Benefits*

- Exercise the right of exclusivity.
- Prevent others from making, using, offering for sale, or importing the patented product or process without your consent.

Industrial Design Filing and Prosecution

We help you with the process of obtaining an industrial design protection for the special aesthetics of your products.

01. *How it works?*

We make sure that all your information and documentation meets local requirements. An engineer expert in industrial designs prepares the application and proceeds with filing. We track and follow up the registration process through our customizable case file management software until granting and keep you duly informed through-out the entire process.

Revision and preparation of documentation

Review by expert engineer

Registration

02. *Benefits*

- Exercise the right of exclusivity.
- Prevent others from making, using, offering for sale, or importing the patented product or process without your consent.

Assignment of Rights

We assist you in the process of transferring the rights of a patent, model or industrial design from one owner to another.

01. *How it works?*

After receiving the information needed to meet local requirements, we file and prosecute the assignment until its recordal in the local IP Office. Throughout the process, we closely track the procedure and send you timely reports of advancement. If necessary, we take care of required translations and inform the corresponding office of the transfer process.

02. *Benefits*

- Obtain a fast-paced prosecution for your case.
- Receive timely report of advancements throughout the recordal process.

Drafting of Patent, Utility Model and Industrial Design Applications

We help your patent, utility model and/or industrial design applications to succeed.

01. *How it works?*

We consider local requirements to make sure that the description and claims meet local legislation. We verify the technology, idea, process, or design is perfectly described, including the novel and innovative features of your IP. All information you provide is strictly confidential. A confidentiality agreement will be signed if necessary.

Revision of local requirements

Preparation of proper description

02. *Benefits*

- Ensure thorough protection of your IP right.
- Increase chances of the application being accepted.
- Save costs.
